

cell projection morphogenesis	neuron projection morphogenesis	plasma membrane bounded cell projection morphogenesis		postsynapse organization	postsynaptic specialization assembly
cell morphogenesis involved in neuron differentiation	neuron development	neuron projection development		synapse assembly	postsynaptic specialization organization
plasma membrane bounded cell projection morphogenesis				postsynapse organization	
axon development	nervous system development	neurogenesis	axonogenesis	postsynapse assembly	regulation of postsynapse organization
cell morphogenesis	neuron differentiation	generation of neurons		postsynaptic density assembly	regulation of synapse organization
regulation of cell projection organization	regulation of plasma membrane bounded cell projection organization	cell projection organization	modulation of chemical synaptic transmission	modulation of chemical synaptic transmission	
regulation of neuron projection development	plasma membrane bounded cell projection organization			chemical synaptic transmission
