

positive regulation of cell projection organization	regulation of cell projection organization	regulation of plasma membrane bounded cell projection organization	nervous system development	neuron development	neuron differentiation
regulation of neuron projection development	positive regulation of cell projection organization		neuron projection development	axon development	plasma membrane bounded cell projection morphogenesis
cell projection organization	regulation of synapse assembly	positive regulation of cellular component organization	cell projection morphogenesis	neurogenesis	neuron projection morphogenesis
synapse organization	regulation of axonogenesis	cell junction assembly	generation of neurons	cell morphogenesis	cell morphogenesis involved in neuron differentiation
regulation of extent of cell growth	developmental growth involved in morphogenesis	developmental cell growth	regulation of developmental growth	regulation of synapse organization
