

organic acid transport	organic acid transmembrane transport	acidic amino acid transport	amino acid transmembrane transport	neurotransmitter uptake
amino acid transport	metal ion transport	monoatomic cation transport	monoatomic ion transport	neurotransmitter uptake
carboxylic acid transport	carboxylic acid transmembrane transport	dicarboxylic acid transport	L-alpha-amino acid transmembrane transport	transmembrane transport
organic anion transport	sodium ion transport	L-glutamate transmembrane transport	L-amino acid transport	import across plasma membrane
transport across blood-brain barrier	transport across blood-brain barrier	vascular process in circulatory system	sodium ion homeostasis	cellular response to oxygen-containing compound
